Embedded Solution

FreyrSCADA IEC 60870-5-101 Development Bundle

FreyrSCADA IEC101 Development Bundle Read Me Notes:

This evaluation package allows you to:

- Use the IEC 60870-5-101 Server, Client Simulator
- Windows & Linux Development kit
- Read the product manual
- Browse the IEC 60870-5-101 library API documentation
- Study the source code of the IEC 60870-5-101 examples provided
- Modify and compile the IEC 60870-5-101 examples
- Create your own IEC 60870-5-101 programs and test them using the library

Limitations and Restrictions

In addition it does not contain any redistributable components. You must not redistribute any Source, object or library files.

Files part of the package

FS-IEC101-V21.04.001

Please find the documentation files at the following location

FS-IEC101-V21.04.001\Documentation

Both Simulators & SDK work as Demo for up to 100 signals/points.

You can use the source code of the application examples and modify them according to your needs.

If you need any technical support, please contact us, (<mailto:support@freyscada.com>)

We are also providing teamviewer support (for testing with ASE Test tool, tmw Test harness, winpp).
